

FORCE & MOTION Kit Barcode: 33357004884399

Ages 8-10. Students develop a concrete understanding of gravity, energy, friction and more...as they experiment with forces & learn how they affect motion! Children just follow simple instructions to complete 7 hands-on experiments—from creating pendulums and experimenting with friction to measuring pull forces and building inclined planes!

Develops skills in identifying and explaining that energy has the ability to cause motion or create change, identifying familiar forces that cause objects to move, and understanding the relationship between force and motion.

Here's what's included in the Kit! Kit replacement cost - \$60
7 DAY LOAN and \$1.00/day overdue fee

(1) information sheet
 (7) experiment cards

54 pieces total including:

- (2) ramps (2) tumblers (2) spring scales (2) measuring tapes (2) pulleys (2) jars (34) marbles (2) pom-poms (2) felt pieces (2) launchers (1) pulley cord (1) wooden stand
